Ilco EZ™ -Code

Performance at an Affordable Price!

Cuts popular commercial and automotive keys by biting number or popular indirect automotive codes.

This affordable machine has features that will help make the job fast, easy and accurate to within +/- .002". An extensive internal database and straight forward menu prompts simplify machine operation so that you can begin cutting keys in just minutes...right out of the box!

- 2-Position Vise Jaw securely grips keys
- Patent pending "Automatic Edge Detection" compensates for slight taper due to "clamping errors"
- No cards required; the internal database contains cut specifications for hundreds of commercial and automotive applications plus over 200 popular indirect code series
- "Design-A-Key" feature allows the operator to input and store customized data to cut newly released keys
- Dependable accuracy with X-Y tolerances within +/- .002"
- Automatic depth calibration eliminates potential errors related to manual techniques
- Cuts to manufacturers' depth and spacing specifications
- Expanded indirect automotive code capability is available by connecting to a PC loaded with the optional Kreate-A-Key® Premium Key Code Software
- Precision ball bearing cutter spindle system for minimal vibration and maintenance

Easy Updates:

Simply remove panel and insert new SD program card. No PC interface problems. No download issues.

The  to your success

Connect to PC:

Interface with Kreate-A-Key Software

Clear Safety Shield

Isolates moving parts and helps contain chips created during cutting process. Safety Interlock prevents operation while shield is raised.

Titanium Coated Cobalt Steel Cutter:

Durable and long lasting

2-Position Jaw:

Securely grips a great variety of keys

Easy to Read LCD Display

Easy to follow menus, LCD Display and "soft-touch" keypad simplify machine operation.

Emergency Shut-off Button

Easy access shut-off button immediately stops the machine at any point during the cutting process.

Product Number: Ilco™ EZ-Code

SPECIFICATIONS:

Power: Single phase 110 volt AC, 60 hz

Cutter: T-U01, Titanium Nitride coated,
cobalt tool steel.

Movements: Precision stepper motor controlled
carriage movement.
